

#HireMeSC Social Media Campaign

Using social media to engage young adults, #HireMeSC seeks to raise awareness about the importance of promoting employment as the first and preferred option for students with disabilities. Youth can take the lead on changing the 70% unemployment rate for people with disabilities in South Carolina by letting their communities know that they will not become unemployment statistics!

How to Get Involved in the Campaign!

1. Young Adults: Take a selfie or a photo with a group holding the #HireMeSC sign and be sure to include the #HireMeSC hashtag in your post. This hashtag will allow the #HireMeSC campaign to see these posts and share them with their own followers.
2. Upload your photo with a few sentences to our Facebook, Instagram, or Twitter pages about your:
 - Dream job
 - Success you've had with employment
 - The barriers you see to employment for people with disabilities

Note: All posts with the hashtag #HireMeSC will be taken as permission to share through other social media outlets connected to the campaign.
